

My 401k

Judy Light
@judy2001 on GitHub

Description

- Web application to choose investments for a 401k
- Allows user to choose how much of their contribution is allocated to each choice
- Shows a pie chart to show the selections
- Shows a pie chart to show the percentages of each type of investment

Planning - User Stories

- I had trouble coming up with ideas
- My actual 401k statement came in the mail
- I thought “I think I can do this.”

Features

- Checkboxes to easily make choices
- Fields to enter percent of investment for each choice
- Pie chart to give a visual of the percentages of selections
- Pie chart to show the percentages of each type of investment

Technology Stack

- Language: Java
- Spring MVC
- Thymeleaf
- Bootstrap
- mySQL database
- D3 (uses Javascript)
